

Lawrence E. Morse Named Vice President of GZA GeoEnvironmental, Inc.

NORWOOD, MA and NEWMARKET, NH...ISSUED FEBRUARY 23, 2009...GZA GeoEnvironmental Inc., a leading environmental and geotechnical consulting firm, has announced that Lawrence E. Morse has been named to the position of Vice President.

Morse has over 35 years experience as a Natural Resource Scientist and Manager, and is certified as a Professional Soil Scientist and as a Professional Wetland Scientist. As President and a major stockholder of NHSC, Inc., he managed a team of Environmental Scientists and technicians providing natural resource identification and management, project planning, project monitoring, regulatory permitting and septic system design to a wide range of clientele.

Prior to forming NHSC, Inc., Mr. Morse was employed by the Subsurface Systems Bureau of the NH Water Supply & Pollution Control Commission, since then incorporated as a division of the NH Department of Environmental Services. In the various positions he held there, Mr. Morse's responsibilities included: design review, installation inspections, educational programs, site evaluation proficiency exams, and policy and rule development. As staff Soil Engineer he acted as the Bureau's technical resource expert for site evaluation techniques, septic system design and operation.

"With a commitment to excellence Lawrence and his professional team at NHSC, Inc. have built a strong reputation for the technical quality of their work and their responsiveness to their client's needs," said William R. Beloff, President and CEO of GZA GeoEnvironmental, Inc. "They share our mission to provide outstanding service in all of our areas of practice and we look forward to working with them in meeting and exceeding all of our clients' expectations."
